MENTORING PROGRAM

For the second straight year, Arlington High School and the Ottoson Middle School teamed up to form the Mentoring Program, in which eighth grade students meet with juniors and seniors from the high school as they begin the transition to the high school level. The program focuses on all the academic and social issues that the prospective freshman will face over the next four years at the high school, as they draw on the experience and advice of the current Arlington High students.

This year the program featured more than 60 boys and girls from the high school who were willing to give their time twice a month to mentor the middle school students. The students were paired up in small groups, with the high school boys working with the middle school boys and the high school girls working with the middle school girls. Am just ambivalent about high school although AHS itself made no concrete contributions to any happy sentiments I have. My dream- Is that people will become more tolerant here because "it's called social progress!" Even if you're a cynic, "keepin' it real cause you're keepin' it real," I've met enough people here to imagine better days.

To the Graduates of the Class of 2004,

Much of what you have learned during the past four years is already tucked away in the far recesses of your brain and will be called upon in September when you enter the next phase of your life. Arlington High School's Mission Statement states in its very first student academic goal, "students shall take responsibility for their learning". The intent of that expectation is to place the responsibility for your own decisions and future upon you! Your parents, teachers and your experiences at Arlington High School have provided the frame for those future choices but the choice is yours. Spencer Johnson, M.D., and a noted writer, offers this advice in his book *The Present*.

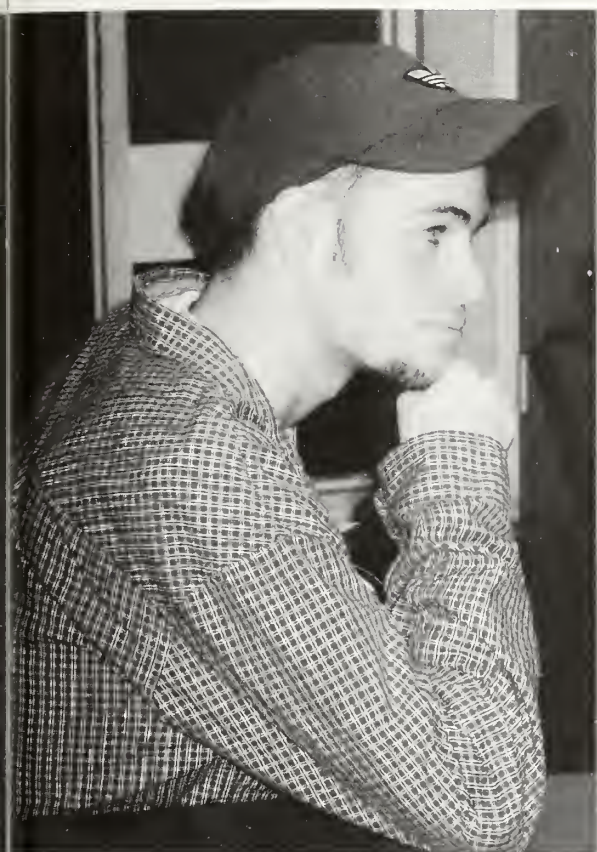

"If you want to be happy and successful, focus on what is right now and respond to what is important right now; when you want to make the present better than the past, look at what happened in the past and do things differently in the future; and when you want to make the future better than the present, see what a wonderful future would look like and make plans to help it happen."

I urge you to learn from the past, and act today to ensure a better future for all; you have the skills.

God bless you and may your future be filled with good health, happiness and success.

Nichole,

We would like to write you a little note to tell you how proud we are of you. Everyday we realize how important you are to us. We are very lucky to have such a caring daughter. I hope that you realize that having one another and helping each other is very important. I want you to know that we love you very much, with great hope and determination you can be whatever you want to be. Everyone is different and you have many talents. Don't ever give up and always try, nothing is impossible. When you look in the mirror, remember all you have accomplished so far and how proud you should be of yourself. Always remember the journey that life takes us, through many ups and downs; but never lose sight of your path. Never forget that your experiences make you who you are. Treat others the way you would like to be treated and respect others and their opinions even though they may be different than yours. As we think of you as graduation day approaches, we realize how truly lucky we are to be your parents. We wish you many healthy and most of all happy years to come. Always know that we love you.

Always and forever,
Mom & Dad.

Matthew;

Like Rog and Manny, I am equally and fondly proud of you. Maybe even more so because you are my last. Throughout your school years (Pierce Elementary - Ottoson Jr. High and AHS) you all have come to be known as "The Perry Boys." As you mature and grow - your faith and spiritual being will be challenged daily, but your "soul" is your own, which is protected and guarded by a Higher Power. You will be challenged by your family, friends, neighbors, teachers, counselors, the church, . . . prompting me to share this sincere sentiment:

"LIFE IS A THEATER, . . . Not everyone is healthy enough to have a front row seat in our lives. There are some people in your life that need to be loved from a distance. It's amazing what you can accomplish when you let go of or at least minimize your time with draining, negative, incompatible, not-going-anywhere relationships/friendships. Observe the relationships around you - and pay attention! Which ones lift & which ones lean? Which ones encourage & which ones discourage? Which ones are on a path of growth uphill & which ones are going downhill? When you leave certain people, do you feel better or worse? Which ones always have drama or don't really understand, know or appreciate you? The more you seek quality, respect, growth, peace-of-mind, love & truth around you - The easier it will become for you to decide who gets to sit in the front row & who should be moved to the balcony of your life? Son, Invite Your Audience Carefully"

Love Ya Always,
Mommy, Roger and Manny
